## Annual Hunting & Fishing Permit Distribution & Sales Summary

**Administrative Services Division  
Business & Support Services Section  
September 2004**

## INTRODUCTION

### **Scope:**

This annual hunting and fishing permit distribution and sales summary includes sales data for those permits commonly known as hunting, fishing and trapping permits. These permits are available statewide for general sports and recreational hunting and fishing activities. Commercial permits and special use permits, such as shooting range permits, boat rental permits (tags and envelopes) and daily trout tags, are not included in this sales report. Please refer to ***The Statistical Sales Report*** for information regarding these permit types.

### **Perspective:**

Hunting and fishing permits account for approximately 19.22% of the Department of Conservation's annual revenue. Major revenue categories for Fiscal Year 2004 are as follows:

One/Eighth % Sales Tax	\$93,488,139.11	61.83%
<b>HUNTING AND FISHING PERMITS</b>	<b>\$ 29,056,821.35</b>	<b>19.22%</b>

Miscellaneous Receipts	\$ 3,542,079.90	2.34%
Federal Reimbursements	<u>\$ 15,401,294.76</u>	<u>10.19%</u>
<b>TOTAL</b>	<b><u>\$151,193,269.29</u></b>	<b><u>100%</u></b>

### **Permit Year Defined:**

Within this sales summary, the sales data reported for the hunting and fishing permits is an accumulation based upon a "Permit Year." Before 1996, the permit year corresponded with the calendar year of January 1 through December 31. The Commission, effective with the selling of the 1996 permits, changed the "permit year" to begin every March 1 and run through until the end of the following February. The Commission changed the "permit year" to correspond with the waterfowl season, which runs until mid-January.

At the beginning of the 1996 "permit year," the Department of Conservation implemented the Point-of-Sale method for selling permits. This new method of selling permits allows the Department to capture sales electronically, at the point where the vendor transacts a permit sale. In addition, with this Point-of-Sale method, generated revenues are drawn electronically from each vendor's designated bank account at a predetermined time.

**Permit Distribution Methods:**

Before 1996, the Department of Conservation distributed all hunting, fishing and trapping permits; trout and waterfowl stamps to vendors statewide either on a Commission Direct basis or through a County Distributing Agent. At the end of the 1990 permit year, the Commission eliminated County Distributing Agents for distributing permits. Effective with the issue of 1991 permits, the Department of Conservation consigned permits directly to duly appointed permit issuing agents. During this time, the Department distributed the hunting and fishing permits to the permit issuing agents in three separate mailings throughout the year. However, beginning in 1996, the Missouri Department of Conservation began using the Point-of-Sale permit distribution alleviating the need for paper permits and report forms.

The Department of Conservation issued Temporary Permit Books to appointed permit issuing agents, in the event the Point-of-Sale system became dysfunctional. In July 1998, the Department had the Store and Forward Program installed within the Point-of-Sale equipment in hopes to reduce the need for the Temporary Permit Book within the 1999 permit year. This program has proven to be a huge success and diminished the need to use Temporary Permit Books. Only the Trout Park Concessionaires, due to their sales volume and isolated locations, were issued Temporary Permit Books for the 2003 permit year. The Store and Forward Program allows the issuing agents the ability to store the last permit transaction until the system becomes functional again.

Since December 1, 1998, the avid hunter and angler has been able to purchase their upcoming Annual Hunting and Fishing permits as early as December 1st of the existing permit year, via the Point-of-Sale terminal. This effort allows purchasers the advantage of securing permits for Christmas gift giving, as well as for their personal recreational use. The annual permits are valid from the date of purchase and remained available until January 31, 2004. This effort enhanced the Department's permit revenue, by recapturing the loss revenue on Christmas permit sales when the Point-of-Sale System was first implemented and early permit purchases was eliminated.

All remaining hunting and fishing permit types became available for sale on February 1, 2003, one month prior to the beginning of the 2003 permit year, via the Point-of-Sale terminals. The only permits not available at that time were the Fall Deer and Turkey hunting permits. Resident and nonresident fall deer and turkey hunting permits were not made available until July 1, 2003.

Beginning with permit year 2000, permits were available for purchase via phone sales handled by ALS (Automated Licensing System). ALS is responsible for providing help desk services for the hunting and fishing vendors, shipping supplies and equipment; and diagnostic assistance with the Point-of-Sale terminals that the hunting and fishing vendors use throughout the State of Missouri.

The Permit Glossary beginning on page 59, lists the majority of permit types that were available for the 2003 permit year. Please refer to the Wildlife Code of Missouri for a complete listing of all permits and prices.

**Dollar Value of Sales Defined:**

All sale figures presented in this sales summary are accumulated using the stated value of reported sales. The stated value of a permit is the price which the Department assigned for that particular permit privilege. Conservation's permit sales revenue is reduced by the service fee, which the permit issuing agents retain and by any uncollectible account that develops during the permit year.

**Service Fee Structure:**

During the 2003 permit year, permit issuing agents sold all hunting and fishing permits except those permits sold at Department areas. Department areas retained no fee where Department personnel sold permits. Department areas remitted, the entire stated value of the permit, directly into the Department's depository accounts electronically through the Point-of-Sale terminal. The Commission reduced fees retained by permit issuing agents, for services performed in selling permits, from 7% to 5% in December 1989.

**Point-of-Sale Distribution System:**

Effective with the 1996 permit year, the Department replaced the paper intensive permit distribution system with a computerized Point-of-Sale automated license system. Permit issuing agents, statewide, can print permits on-site. The permit issuing agents are currently using one generic form, which replaces the 1995 system of 25 different licenses and stamps.

Instead of having selective time-frames for selling permits, all permit types were available for sale on February 1, 2003, except those permits noted on page 2 of this report. Information from the sale of permits is transmitted on-line to the Department over regular telephone lines. With the Point-of-Sale system, the Department now has a complete database of all permit purchasers, which greatly enhances resource management. The Point-of-Sale system eliminates issuing agents completing sales reports and eliminates bond requirements for most of the issuing agents.

The Point-of-Sale system now allows:

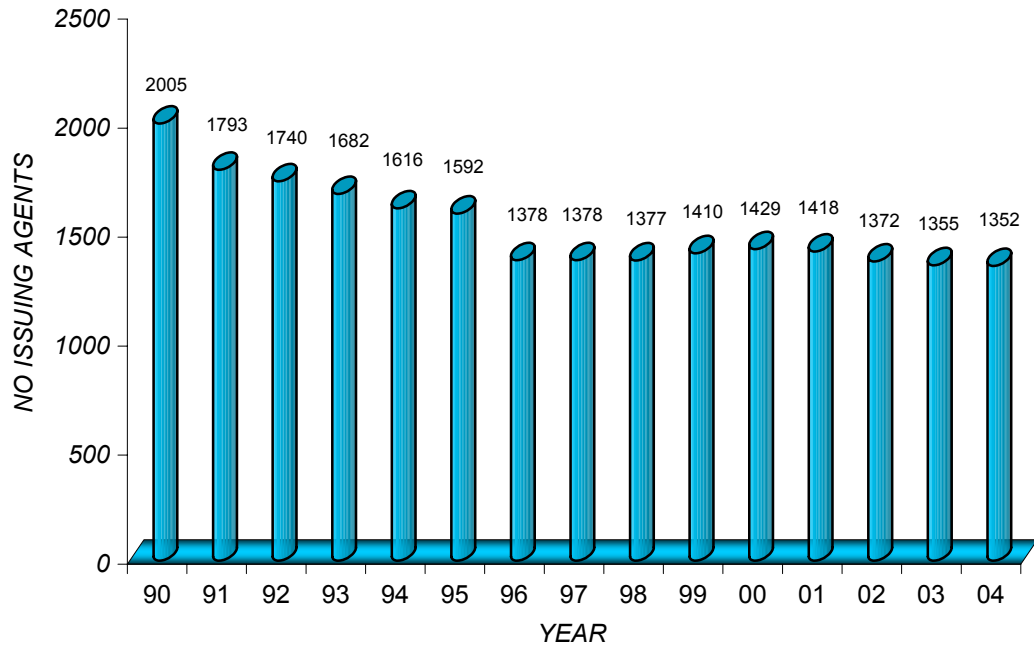

- ◆ Permit sales to be reported electronically by telecommunications via the Point-of-Sale terminal.
- ◆ Payments, for permits sold, to be withdrawn electronically from the issuing agent's bank account according to a predetermined weekly or monthly schedule.
- ◆ Revenues, obtained from permit sales, to be transferred electronically to the State Treasury depository account.
- ◆ Vendors will be able to process a sales transaction, even during downtime, with the new Store and Forward feature, until the system is again functional. Alleviating the need for Temporary Permit Books.

**Point-of-Sale Enhancements for 2003**

- ◆ Permit appearance was modified by changing the printing orientation from vertical to horizontal in an effort to minimize the size of the actual printed permit, to make it a more convenient size to carry.
- ◆ Transportation tags are also printed with the Turkey and/or Deer permit, thereby, alleviating the associated expenses of ordering and shipping tags to permit vendors statewide.
- ◆ Permits became available through the Internet, enabling the avid angler and/or hunter to purchase their permit from the convenience and comfort of their home.

## **TEMPORARY PERMITS**

The Department of Conservation started the electronic Point-of-Sale Method for issuing hunting and fishing permits, statewide, with the beginning of the 1996 permit year. Along with this new method came the problems associated with new computerized programs.

All hunting and fishing issuing agents were issued Temporary Permit Books, to address the problem for when the electronic system might fail to be functional. If the system became dysfunctional, then the Temporary Permits were used to complete a sales transaction and issue a temporary permit valid for fifteen days, to the permittee. Once the system was functional, the vendor was responsible for entering the sales via the electronic terminal to obtain the actual permit privileges that the permittee purchased. The Department issued seventeen books to Trout Park Concessionaires during the 2003 Permit year.

Prior to the 1999 Permit Year, the Missouri Department of Conservation implemented the Store and Forward Program within the Point-of-Sale terminal. This program allowed the issuing agents the ability to store the last permit transaction, on the terminal, until the system was functional again, thereby alleviating a need for Temporary Permit Books. Only those vendors identified previously, were issued Temporary Permit Books for 2003.

Continuing with the 1996 reimbursement policy for each temporary permit issued correctly through the Point-of-Sale terminal, the Department of Conservation was prepared to award each issuing agent an additional fifty-cent credit per temporary permit. This credit was issued to the issuing agent for each temporary permit issued correctly through the Point-of-Sale terminal, once it was functional.

The Temporary Permit Books were reconciled and the Department of Conservation issued reconciliation statements to vendors outlining the results. Those vendors who failed to issue the temporary permits back through the Point-of-Sale System were issued a statement showing the Department's share of the fees collected. The vendors retained the 5 percent fee for these permits and remitted the balance reflected on their reconciliation statement directly to the Department of Conservation.

Permit year 2003 indicated that the Store and Forward Program has proven to be a success and a viable tool for handling down time with the Point-of-Sale System. This is due primarily to the fact that there were no payments issued to vendors for the second consecutive permit year for issuing temporary permits.

**NOTE:** Effective with the 2002 permit year, anglers and hunters were provided the opportunity to buy: (1) lifetime hunting; (2) lifetime fishing or (3) lifetime conservation partner permit based upon their age as opposed to paying an established set fee. By setting a pre-determined fee based upon age, the Department is able to provide a viable management tool to monitor public interest in outdoor sports while providing cost-savings opportunity for all resident hunters and anglers.

**NOTE:**

---

Beginning with the 2001 permit year, in an attempt to streamline the issuance of Resident Landowner Deer Permits, the Department decided to utilize the Point-of-Sale system to issue and account for these permits. This step allowed MDC to record all hunting permits comprehensively in a single data base. Landowner permit records had previously been maintained in a separate data base, which made reporting and comparisons difficult.

Please note there is no cost associated with these permits, therefore the above permits are not included in the total permit sales reflected throughout the report. This was done in order to provide a more concise and accurate reflection of permits assigned a stated fee amount to conserve the comparison capability of prior year sales vs the current year sales, without overstating the sales by showing these permits that do not have a fee associated or attached to the permit. However, the issuance of these permits will be reported as shown above, to retain the integrity of this report and for historical purpose.

**NOTES:**

1987 marked the beginning of the Department issuing bonus antlerless-only firearm deer permits in unit's quota that had permits remaining after the initial any-deer drawing. Hunters are required to purchase an additional additional deer hunting permit prior to the deer season if they are chosen for a bonus antlerless-only deer permit. This was increased to a possible two bonus antlerless-only permits in 1994.

(1) - Effective with Permit Year 2001 this permit was changed to Anterless Only Archery and was opened to additional counties throughout the State of Missouri. (See page 48 for sales)

Beginning in 1988, archery hunters were allowed to take one deer and one turkey before firearm deer season and one deer and one turkey after the firearm season.

In 1994, the Department began including a check box on the nonresident firearm deer tag, allowing them to hunt in either the regular or muzzleloading firearm season. A separate nonresident muzzleloading firearm deer permit was made available with the 1996 Permit Year.

- (1) - Effective with Permit Year 2001 this changed to Antlerless Only Archery, instead of the 5 Urban Archery permits, allowing additional counties to participate.
- (2) - Permit Year 2002 began a new pricing method for these permit types based upon age. See page 29 for pricing and sales breakdown of the various permits available. Sales reflected encompass all sales for the lifetime permit shown.
- (3) - Residents of IA, IL, KS & OK have an additional \$25 surcharge for this permit type

**HUNTING AND FISHING PERMITS  
CHARGE OFFS AND BOND CLAIMS  
1976 THROUGH 2003 PERMIT YEARS**

Prior to May 1981, all permit vendors and distributing agents were included under a blanket bond which paid all losses. In May 1984, all blanket bond coverage was discontinued. All vendors after that date were required to furnish surety bonds in an amount sufficient to cover potential losses. In November 1989, the Department began to waive bonds for issuing agents with at least 30 months of satisfactory experience and a sales volume of less than \$10,000 annually. The average bonded permit issuing agent was required to have \$3,000 coverage at a cost to the issuing agent of approximately \$100 a year.

Beginning with the 1996 permit year and the implementation of the electronic POS method of selling permits, 99.6% of the permit issuing agents were no longer required to furnish a surety bond. The Department's share of the permit sales are now collected electronically from the issuing agents specified bank account. However, each existing permit issuing agent is required to furnish a refundable security deposit for a POS terminal. Existing vendors in 1995, with accounts in good standing, were required to furnish a \$250.00 deposit. Those appointed after 1995 were required to pay a \$550.00 deposit. Vendors requesting additional terminals must furnish \$550.00 per terminal, which is also refundable.

Since the inception of POS, new vendors with poor credit ratings were asked to furnish a Surety Bond or Letter of Credit. Currently, as of Permit Year 2003, there are ten (10) vendors who are required to furnish bonds. The following lists the write-offs for the past four years:

Permit Year 1999	\$ 54.15	(Was ultimately collected)
Permit Year 2000	\$ 2.00	
Permit year 2001	\$ 0.00	
Permit Year 2002	\$288.85	

It should be noted there were no bond claims filed during this same time period, representing another advantage of using the POS method of selling permits as opposed to the traditional paper method that was used in the early 90's.
